

## ACOUSTICS

### Return Air Inlet Silencer

- Add on option for sound critical applications
- Reduction of 10 db in 3rd and 4th bands
- 19" long from plenum wall
- No impact on aerodynamic performance
- No impact on efficiency
- Encapsulated, natural fiber attenuation

## EFFICIENCY

### Exit Guide Vanes (EGV)

- Add on option to achieve highest efficiency
- Increase static efficiency by 3% - 6%
- No impact on overall length of fan module
- Factory installed
- Key element in exceeding LEED requirements
